RE: Apprenticeship RSI Class Scheduling - *Revised*

The MT & WY JATC boards has reviewed and revised the current Related Supplemental Instruction (RSI) class scheduling policy. This memo serves to notify you that the following Apprenticeship RSI Class Scheduling revision will be implemented effective January 1, 2019.

We are pleased to announce that the MT & WY JATC Boards approved the scheduling of Apprenticeship RSI Classes on a year round basis (Jan – Dec). A full year scheduling opportunity will:

- Lessen the financial hardship on apprentices as they fulfill their annual 160 RSI class hour requirements by spreading their required classes over the entire year instead of only in Jan – Apr
- Help alleviate the possibility of scheduling back-to-back class weeks for apprentices
- Allow more time for Signatory Contractors to plan their work load during the absence of their apprentice(s)

Please feel free to call us with any questions that you may have.
